BEING "ALL EARS"

Tradition states that of all our senses, hearing is the most subtle, opening us up to a deeper understanding. "Lend me your ears!" sages will repeat to their disciples. "Open your ears!" teachers are forever repeating to their pupils. Is the secret to progress to be "all ears"?

Here in Venice for the third time on the soil of our Italian friends, EURYE is making a new step towards international acclaim. On the Isle of San Servolo where poets, artists and seekers of truth have long found a place of inspiration, a tamed silence invites yogis to let their voices, their ideas and their breath blend in with the whispering sounds of the lagoon. A valuable time and place for us to spend time together and exchange with one another, as the theme of this gathering so rightly invites us to do.

□ **Workshop A : Sacred Dancing , Meditation in movement**

With Geneviève Khemtémourian

The fruit of a personal synthesis of different dance currents in which the most essential and significant gestures have been kept, meditation in movement evokes vitality, serenity and harmony. Being both lighthearted and profound at the same time, Sacred Dancing awakes and reawakes an inner joy within us and leads us to the very heart ourselves with the elation of feeling connected.

Through her simplicity and universal approach, Geneviève's work is applicable to both children and adults. In French, English and Spanish.

□ **Workshop B : Qi Gong (Chi Kung) or The Art of Cultivating Vital Energy**

Avec Lourenço de Azevedo

Chi Kung is a branch of traditional Chinese medicine and is also part of a tradition that is therapeutic and meditative. Through controlled and coordinated exercises, we learn how to identify, feel and develop the vital energy with the benefit for oneself and in one's relationship with others. In Portuguese and English.

□ **Workshop C : The World of Colours. The magic and transparency of watercolour**

With Donatella Besa

Colours have a soul and are living beings. Painting is a way by which we can connect with ourselves. Watercolour, in particular, enables us to interact with light and transparency, creating a lightness that releases tension. With colours, a paintbrush, water and paper, we will journey into our inner world with a respect both for the life within and around us.

Material provided. In Italian and French.

□ **Workshop D : Listen, play and sing Rossini : The Triumph of Goodness**

With Marina Bontempelli

*This workshop is based on the discovery of one's own voice and expression through song. Through listening skills, we will experiment our ability to understand the meaning of words and the force of sound. We will prepare an extract from **Cinderella** a comic opera by G.*

Rossini. In Italian, French and English.

□ **Workshop E : The discovery of one's own mandala**

With Girma Anuskeviciute

***Mandala** is a sanskrit word which means « circle ». Drawing a mandala allows oneself to become centred - aligning the body, mind and spirit. It also stimulates creativity and develops the feeling of joy, peace and well-being. We will be exploring different mandala techniques taking into account their therapeutic, spiritual and artistic dimensions. In English, French and Spanish.*
